

**TECHNICAL DATA** 

# Fluke Networks Pro3000™ Tone Generator

## **Key features**

- Send tone signal up to 10 miles (16 km) on most cables
- Analog tone generator with bed-of-nails clips
- SmartTone™ provides 5 distinct tones for exact pair identification
- Continuity testing and line polarity confirmation
- Tone can be traced by a compatible analog probe (sold separately)

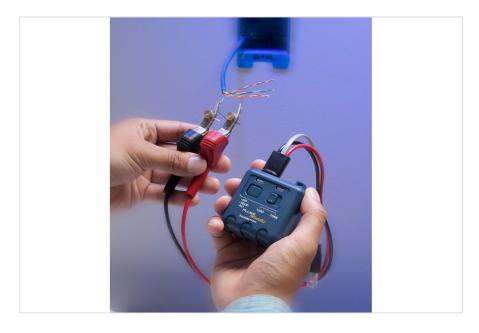

### **Product overview: Fluke Networks Pro3000™ Tone Generator**

The Pro3000™ unfiltered toner, for use on inactive networks, uses SmartTone™ technology, with five different tones to allow the technician to easily identify individual pairs. Angled-bed-of-nails clips allow easy access to individual wires, and the RJ11 connector is ideal for use on telephone jacks.
